Installation Instructions for Hayabusa (08-17) **PAIR Block-Off Cap #831621**

The Pair Block-Off Cap is used to block off emissions (PAIR) to help prevent 'deceleration pop' and also prevents ram-air pressure loss from the air box after blocking the PAIR.

1. Lift and prop gas tank.
2. Remove PAIR hose from air box port. See figure 1.
3. Place the Block-Off Cap on port of air box.
4. Reinstall hose over plugged port. See figure 2.
