BROCK'S CUSTOM PILOT SADDLE BY CORBIN BMW S1000RR (10-18) PRODUCT INFORMATION

Directly replaces the OEM pilot saddle on the BMW S1000RR (10-18). The saddle features premium foam for less rider fatigue on long trips. A 'cut' section also provides the rider with more positive ground contact.

Package Contents:

Custom Pilot Saddle shown:

1. One (1) Custom Pilot Saddle
(Saddle may differ from image)
2. Two (2) Socket Head Cap Screws
3. Product Information Page

If your package contents differ, please contact Brock's Performance at 937-912-0054.

Installation Notes:

- Follow OEM service manual for pilot saddle removal.
- Pull back on the saddle corners and install the supplied screws into the bracket before installing the saddle on the motorcycle.
- Brackets are slotted for minor adjustment, adjust as needed to obtain proper alignment.
- Lower saddle into position and slide forward.
- Alternate tightening between screws until snug.

Care Notes:

Vinyl is an extremely durable and weather resistant product and therefore requires little care. It is suggested to avoid any cleaners and/or conditioners that are petroleum based as they could lead to fading and eventual breakdown of the material. Cleaning can be achieved with Corbin's Saddle Cream or a similar product.

Note: The Comfort Cell® foam has a memory feature. It will take approximately 1500-2000 miles for the saddle to shape to the rider.

ALL BROCK'S PERFORMANCE PRODUCTS ARE DESIGNED FOR CLOSED-COURSE RACETRACK USE ONLY!
