KAWASAKI ZX-10R (16-18) BrockSTAND™ PRODUCT INFORMATION

The ZX-10R BrockSTAND™ (#962790 & #962803) is designed to easily provide users with a full range of adjustability from 'ultra-slammed' drag to street applications using only a 4mm hex key. Adjustment ranges: Road Version (#962790) +0.25" to -2.00" / Track Version (#962803) -1.75" to -3.75"

Package Contents:

ZX-10R BrockSTAND™ shown:

1. One (1) Black Anodized Body
2. One (1) Black Anodized Foot
3. One (1) Adjustment Bolt
4. One (1) Spring Mounting Stud
5. One (1) Blue Threadlocker 0.5ml (not shown)

Installation Notes:

- Install using the OEM kill switch, springs, and mounting hardware. See factory service manual for detailed instructions (QR Code link to factory service manual provided below).
- When adjusting the foot length, it is recommended to apply blue threadlocker (supplied) to the threads of the Adjustment Bolt (3) before installation.
- Red threadlocker is applied to the Spring Mounting Stud (4) threads during factory assembly. The Spring Mounting Stud (4) should not be removed. In the event removal is required, apply red threadlocker to the threads before installation.
- **Installation Tip:** To ease spring removal/installation, fold the kickstand down to fully extend the spring. Place a penny between each of the open spring coils. When the kickstand is folded up, the spring will remain extended and be easier to remove/install.

For additional support please refer to the OEM service manual. It can be found here:
