

GSX-R1000 (07-08) OIL LINE EXTENSION BLOCK KIT INSTALLATION INSTRUCTIONS

The Oil Line Extension Block Kit for the Suzuki GSX-R1000 is necessary to run the OEM oil cooler and lines with Brock's Performance Ti/Sidewinder exhaust systems.

Check Package Contents:

The Package Contents Include:

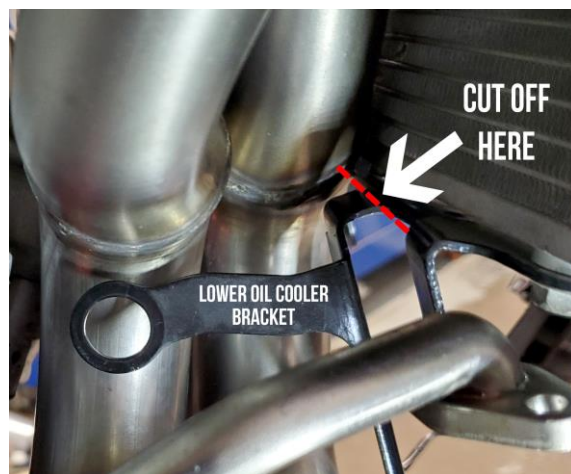

1. Two (2) Oil Line Extension Blocks
2. Two (2) O-Rings
3. Four (4) Bolts
4. Two (2) Brass Plugs (Installed)

If your package contents differ, please contact Brock's Performance at 937-912-0054.

For additional installation support please refer to the OEM service manual.

Instructions:

1. Support the bike using a wheel stand or lift.
2. Remove side fairings.
3. Drain engine oil.
4. Remove oil cooler from the bracket on the radiator, by removing bolts above and below the oil cooler.
5. Cut the lower oil cooler bracket as shown and remove.
6. Unbolt the oil cooler lines from the oil cooler, leaving the cooler lines bolted to the engine.
7. Bolt the supplied oil line extension blocks to the oil cooler, make sure the OEM O-ring is in place and undamaged (**do not over tighten**).
8. Apply a small amount of new engine oil to the supplied O-rings to promote a good seal, and install OEM cooler lines to the Oil Line Extension Blocks (**do not over tighten**).
9. Refill engine with fresh oil (change filter if desired).
10. Reinstall the oil cooler to the mounting bracket attached to the radiator (lower portion of bracket removed for use with Ti/Sidewinder exhaust and is no longer used).
11. Install pipe and reinstall bodywork.

ALL BROCK'S PERFORMANCE PRODUCTS ARE DESIGNED FOR CLOSED-COURSE RACETRACK USE ONLY!
