NINJA H2/R (15-26) BrockSTAND™ PRODUCT INFORMATION

The Ninja H2 BrockSTAND™ is designed to easily provide users with a full range of adjustability from 'ultra-slammed' drag to street applications using only a 4mm hex key. Adjustment ranges:
Road Style +1.00" to -2.00"/ Track style -1.50" to -3.50"

Attention: When altering the factory set length of the kickstand threadlocker must be reapplied to the Adjustment Bolt (3). Brock's Performance will not warrant parts lost as a failure to do so.

Package Contents:

Package Contents Include:

1. One (1) Black Anodized Body
2. One (1) Black Anodized Foot
3. One (1) Adjustment Bolt
4. One (1) Spring Mounting Stud
5. One (1) Blue Threadlocker 0.5ml (not shown)

If your package contents differ, please contact Brock's Performance at 937-912-0054.

Installation Notes:

- Install using the OEM kill switch, springs, and mounting hardware.
- When adjusting the foot length, blue threadlocker (supplied) **must be applied** to the threads of the Adjustment Bolt (3) before installation. Torque bolt to 48 in-lb. (5 Nm).
- Red threadlocker is applied to the Spring Mounting Stud (4) threads during factory assembly. The Spring Mounting Stud (4) should not be removed. In the event removal is required, apply red threadlocker to the threads before installation.
- Installation Tip: To ease spring removal/installation, fold the kickstand down to fully extend the spring. Place a penny between each of the open spring coils. When the kickstand is folded up, the spring will remain extended and be easier to remove/install.

For additional installation support please refer to the OEM service manual. They can be found here:
