BMW S1000RR (10-26) / HP4 (12-15) BrockSTAND™ PRODUCT INFORMATION

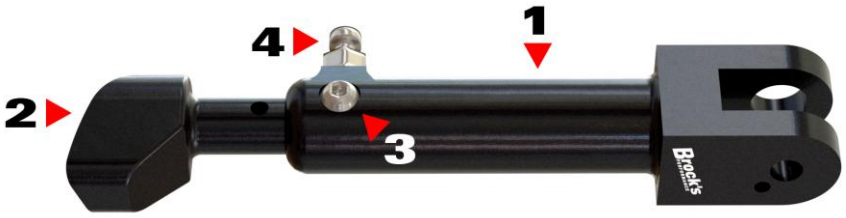
The S1000RR BrockSTAND™ is designed to easily provide users with a full range of adjustability from 'ultra-slammed' drag to street applications using only a 4mm hex key.
Adjustment ranges: Road Version 0" to -2.0" / Track Version -2.0" to -4.0"

Attention: When altering the factory set length of the kickstand threadlocker must be reapplied to the Adjustment Bolt (3). Brock's Performance will not warrant parts lost as a failure to do so.

Package Contents:

S1000RR BrockSTAND™ shown:

1. One (1) Black Anodized Body
2. One (1) Black Anodized Foot
3. One (1) Adjustment Bolt
4. One (1) Spring Mounting Stud
5. One (1) Blue Threadlocker 0.5ml (not shown)



Installation Notes:

- Installs using the OEM kill switch, springs, and mounting hardware.
- Transfer the rubber plug from the OEM kickstand to the BrockSTAND™.
- Take care when removing the circlip for the kill switch. Replace as needed.
- When adjusting the foot length, blue threadlocker (supplied) **must be applied** to the threads of the Adjustment Bolt (3) before installation. Torque bolt to 48 in-lb. (5 Nm).
- Red threadlocker is applied to the Spring Mounting Stud (4) during factory assembly. The Spring Mounting Stud should not be removed. In the event removal is required, apply red threadlocker to the threads before installation.
- Torque kickstand pivot (mounting) bolt to 26 lb-ft (35 N·m).
- **Installation Tip**: To ease spring removal/installation, fold the kickstand down to fully extend the spring. Place a penny between each of the open spring coils. When the kickstand is folded up, the spring will remain extended and be easier to remove/installed.

ALL BROCK'S PERFORMANCE PRODUCTS ARE DESIGNED FOR CLOSED-COURSE RACETRACK USE ONLY!
