## BST Wheel Hub Cover for H-D Wheels

The Hub Cover is designed to be installed on Harley-Davidson® Sportster, Dyna, Softail, and Touring models when the brake rotor is not being installed. The part covers up the "star" hub on the wheel to offer a finished look.

### Check Package Contents:

#### The Package Contents Include:

1. One (1) Hub Cover Adapter
2. One (1) Hub Cover
3. Three (3) Set Screws
4. Five (5) Flat Head Screws
5. One (1) Blue Threadlocker

If your package contents differ, please contact Brock's Performance at 937-912-0054.

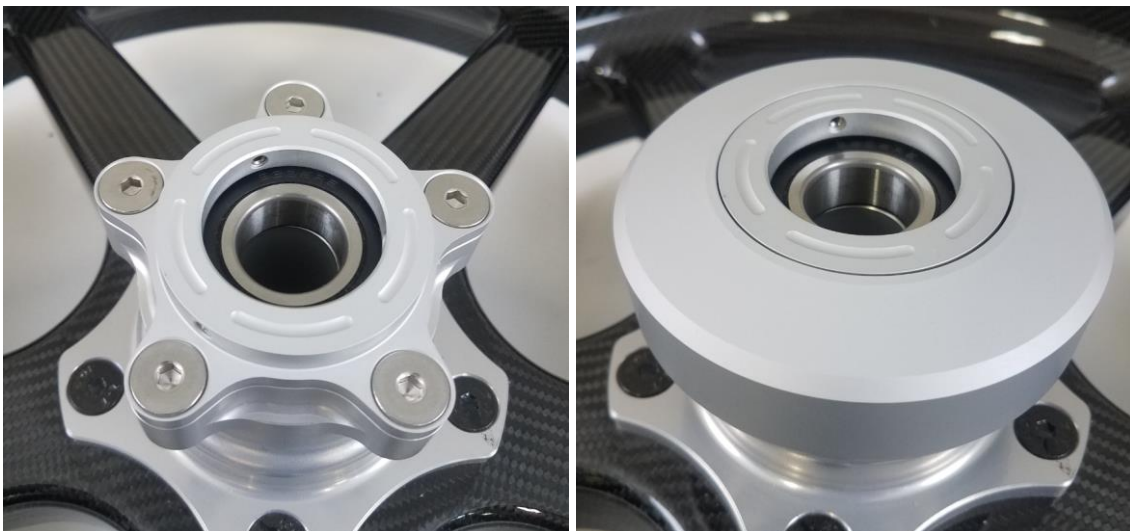

For additional installation support please refer to the OEM service manual.

**Note:** It is recommended that the front and rear brake rotors are installed diagonal (ex. Rear-Right and Front-Left) on the bike for best brake control.

### Installation Instructions:

1. Install the Hub Cover Adapter to the wheel using the supplied Flat Head Screws. Apply Blue Threadlocker to the bolts before installation.
2. Install the Hub Cover over the Hub Cover Adapter. Secure in place with the Set Screws (The set screws sit into a groove in the Hub Cover). Tighten the set screws evenly to keep the Hub Cover centered on the wheel.
3. Install the wheel on the bike using the OEM service manual.
