Installation Notes:

- Install using the OEM kill switch, springs, and mounting hardware. See factory service manual for detailed instructions.
- When adjusting the foot length, blue threadlocker (supplied) **must be applied** to the threads of the Adjustment Bolt (3) before installation. Torque bolt to 48 in-lb. (5 Nm).
- Red threadlocker is applied to the Spring Mounting Stud (4) threads during factory assembly. The Spring Mounting Stud (4) should not be removed. In the event removal is required, apply red threadlocker to the threads before installation.
- Installation Tip: To ease spring removal/installation, fold the kickstand down to fully extend the spring. Place a penny between each of the open spring coils. When the kickstand is folded up, the spring will remain extended and be easier to remove/install.
