

## KAWASAKI ZX-10R (04-26) EXTRA HEAVY DUTY CLUTCH SPRING KIT INSTRUCTIONS

The EHD Clutch Spring Kit is designed to increase the spring pressure at the clutch plates. Increased spring pressure is necessary for increased power applications to prevent clutch slippage and increase clutch life.

### Check Package Contents:

#### The Package Contents Include:

1. Six (6) Spring Tops
2. Six (6) Extra Heavy Duty Clutch Springs (Green)
3. Six (6) .025" Shims
4. Twelve (12) .062" Shims

If your package contents differ, please contact Brock's Performance at 937-912-0054.

For additional installation support please refer to the OEM service manual.

### Special Notes:

- Inspect the clutch fully for any signs of wear and/or damage before installation. Replace parts as needed.
- The extra heavy duty clutch springs have a minimum of .760" installed height.
- Additional clutch spring spacers can be purchased at [Brocksperformance.com](http://Brocksperformance.com).
- [Brock's Clutch Mod](#) is required to be used with this extra heavy duty spring kit.

### Instructions:

1. Support the bike using a wheel stand or lift.
2. Remove clutch cover.
3. Remove six (6) OEM springs and spring tops (these will not be reused)
4. Install the supplied clutch springs, .062" shims, .025" shims, and spring tops.
5. Secure using the OEM bolts and torque to 97 lb-in (11 N·m).
6. Reinstall the clutch cover and torque cover bolts to 89 lb-in (10 N·m).
7. Adjust clutch lever free play as needed.
